

Your Passion Our Innovation

ABOUT US

WHO WE ARE

Red Apple Technologies is a game and app development company. Our journey started when we, a bunch of enterprising individuals, were eager to establish our footprints in the digital landscape by blending art and technology

WHAT WE DO

Our technical expertise encompasses a wide array of Modern tools and frameworks, Including Javascript (Node, React, Three, Angular) Unity, Phaser, Cocos, Construct, Unreal, and PHP.

OUR JOURNEY

Originating from humble beginnings, we've expanded globally with offices in Kolkata, Delhi, Hyderabad, Texas, and Sweden. In 13 years, we've excelled in gaming, healthcare, Fintech and education, offering innovative solutions. With 1000+ projects executed, our 150+ professionals utilize cutting-edge technologies like Generative AI and AR/VR to realize groundbreaking visions. Our portfolio showcases our expertise.

Digital Marketing

GAME

Dedicated to providing exceptional gaming solutions, we utilize state-of-the-art tools and cutting-edge resources. With a decade-long track record of serving diverse industries, we specialize in executing projects that leverage trending technologies such as Blockchain, Metaverse, NFT, and Gamification, effectively meeting evolving industry demands.

AR & VR

As an AR and VR app development company, we empower players to interact uniquely with gaming objects, revolutionizing gameplay mechanics and adding dynamic surprises. We approach AR and VR gaming with the goal of immersing every user in an unforgettable adventure, providing an experience that goes beyond mere visualization to truly feel the spectacular environments of Virtual and Augmented Reality.

XR & MR

XR/MR games seamlessly blend virtual and real worlds, offering unmatched immersion. Players interact with digital elements in their physical surroundings, creating dynamic gameplay. Utilizing cutting-edge tech, they blur reality and fantasy, sparking innovation. With XR/MR, users enjoy captivating adventures, transcending traditional gaming limits.

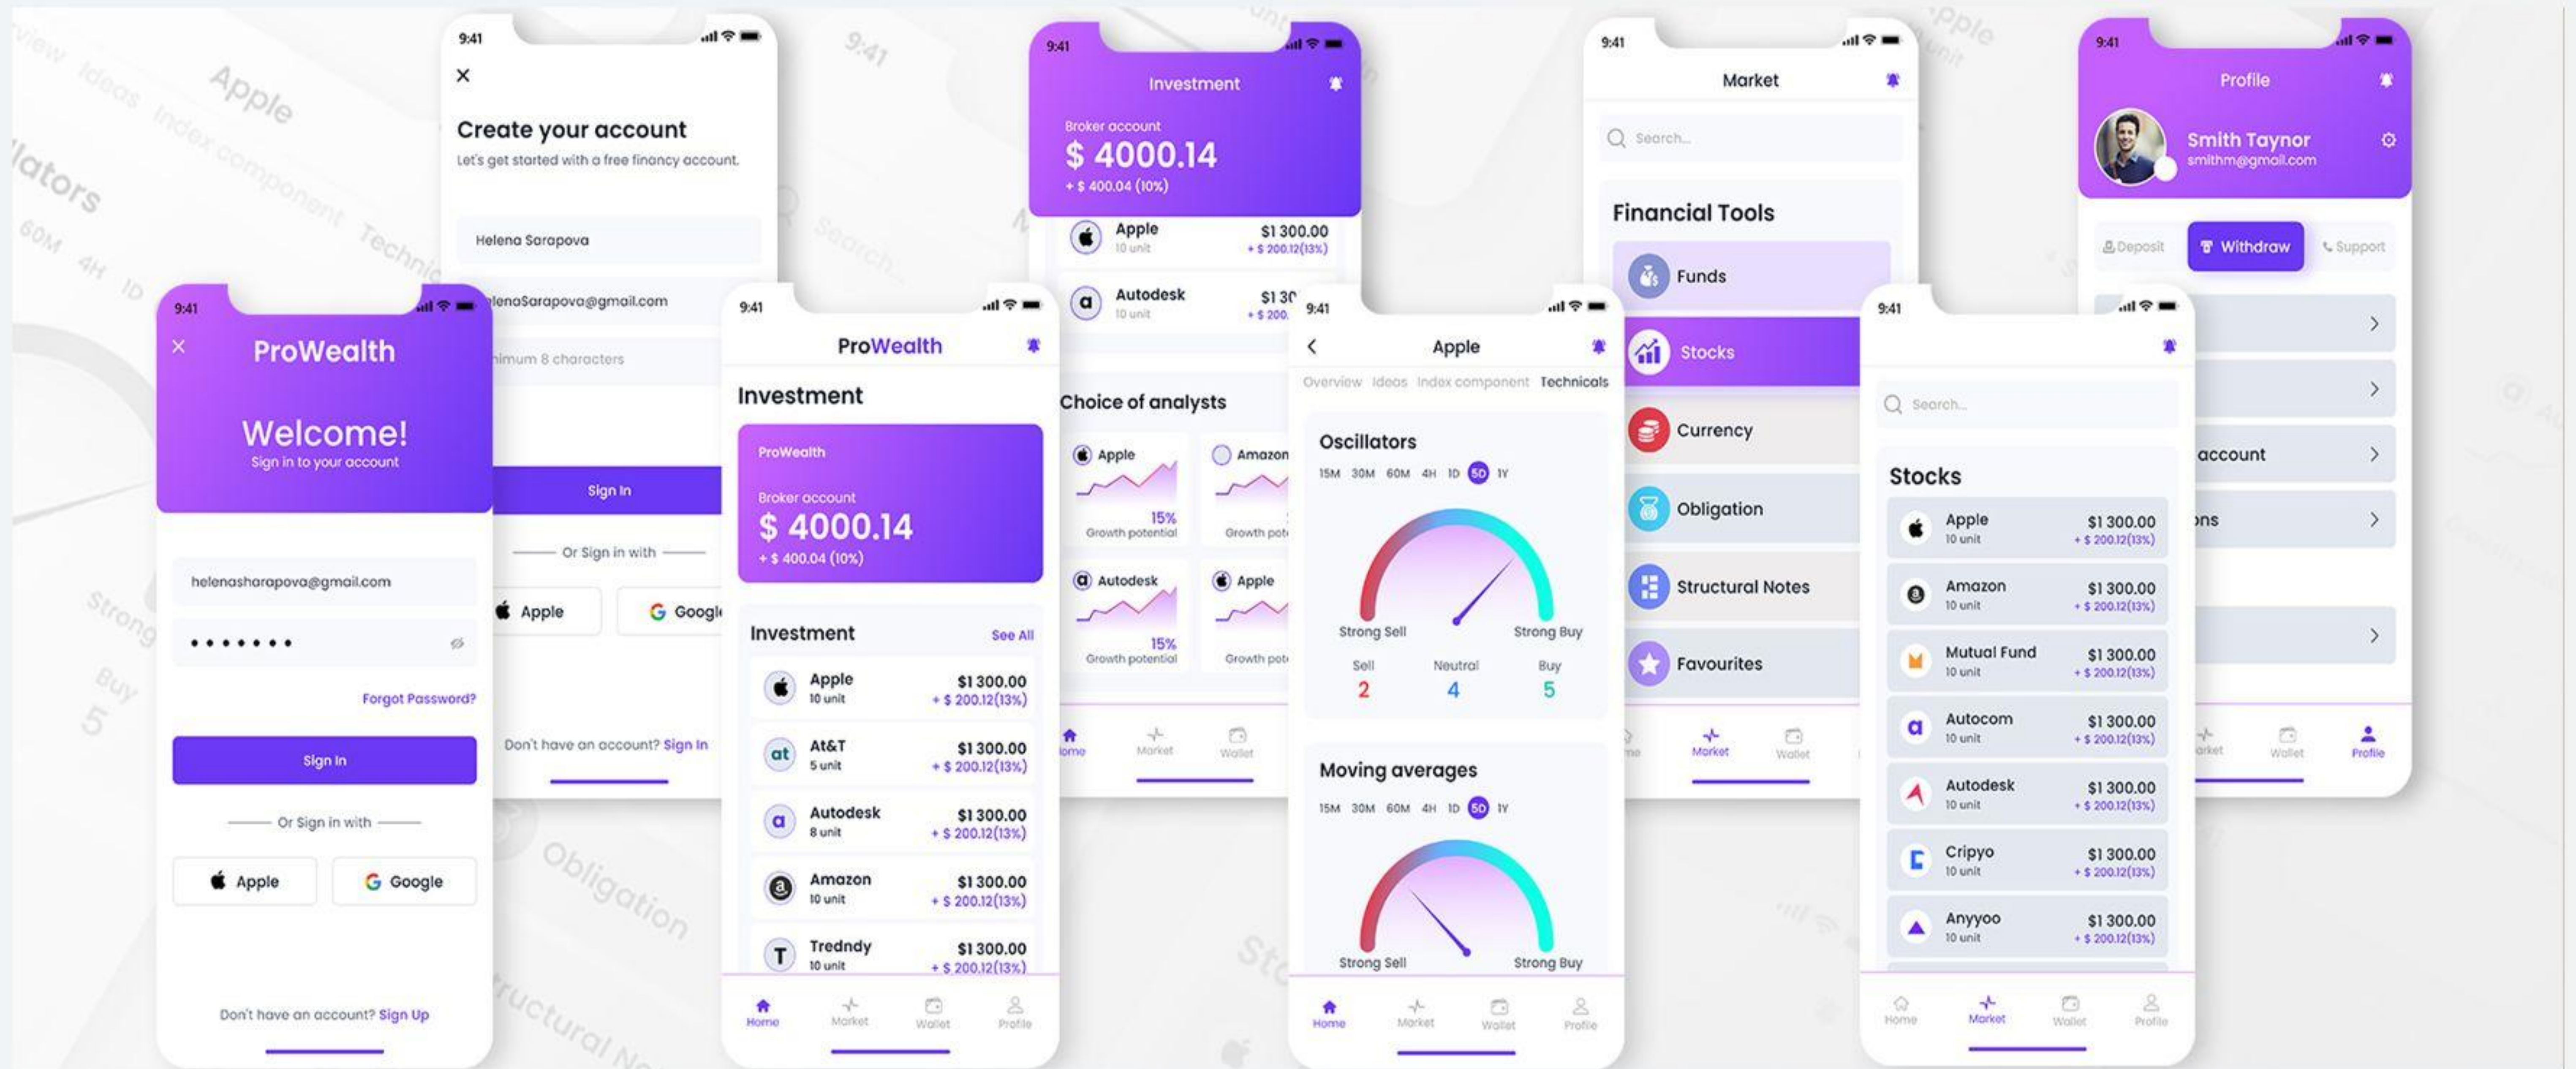

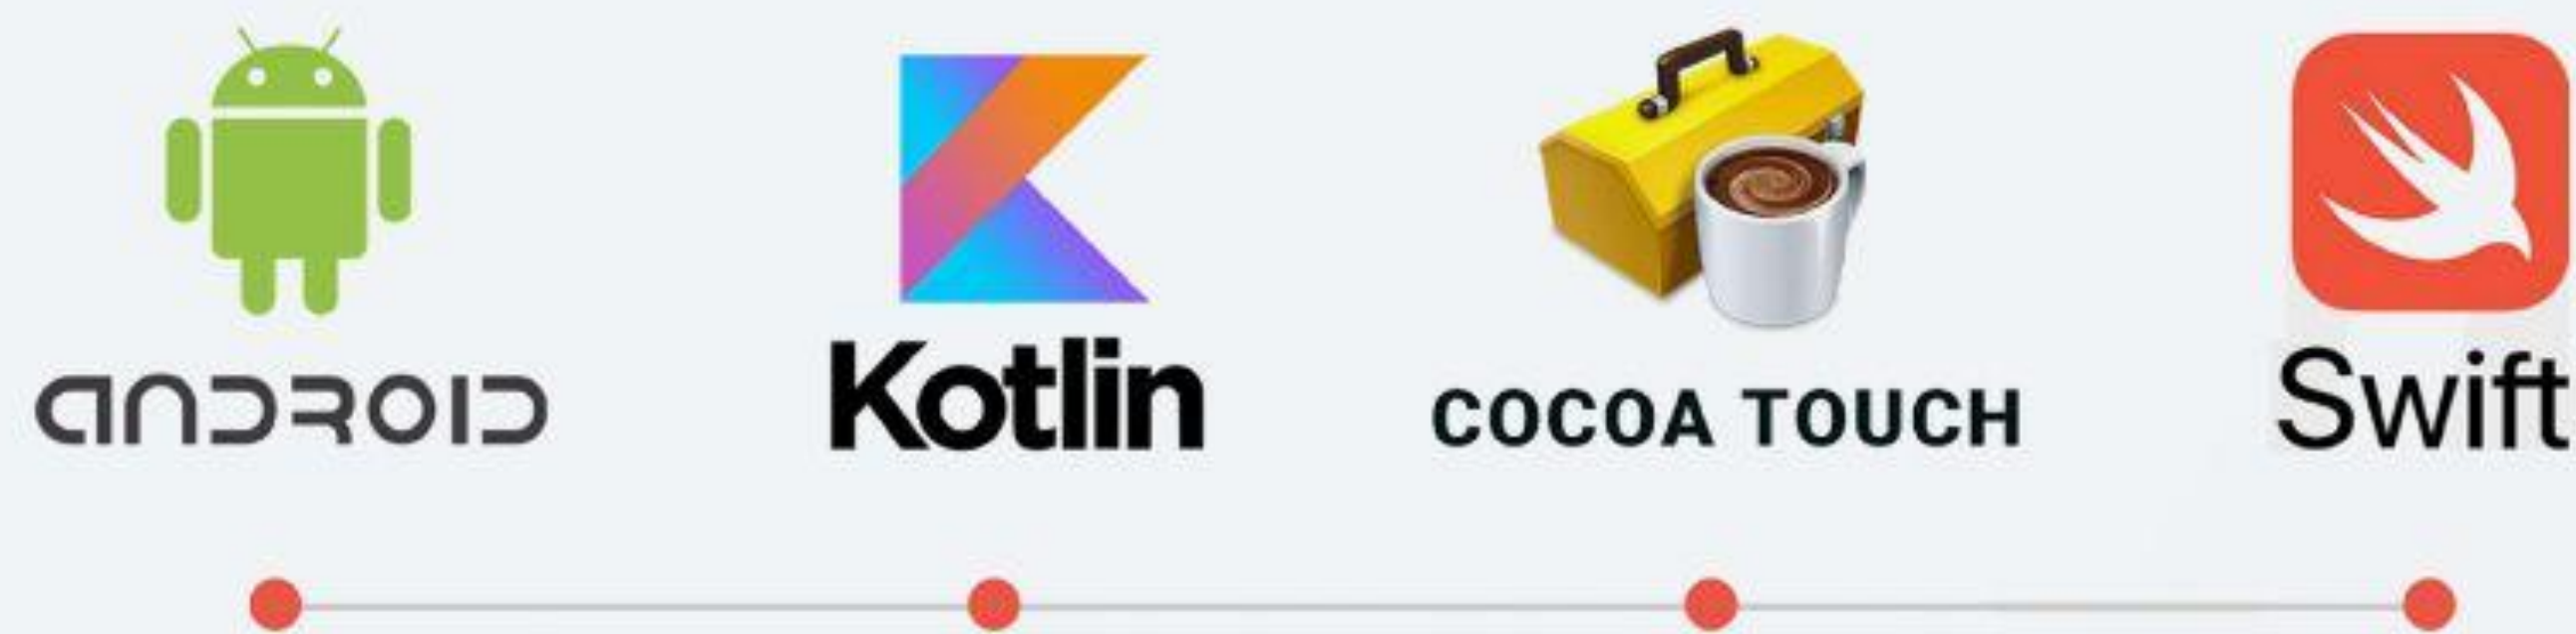

DIGITAL MARKETING

We assist your business in delivering online marketing services to meet global demands. Our offerings include intangible benefits such as enhanced accessibility, competitive edge, and effectiveness, establishing a distinct position in the minds of current and prospective customers including data-driven advertising, online behavioral advertising, collaborative environments, game advertising, remarketing, and more.

MOBILE & WEB, UI/UX APP DEVELOPMENT

As more companies join the app market, mobile apps play a crucial role. Whether on Android or iOS, businesses seek interactive apps for a competitive edge. Thanks to advanced tech, web apps are now engaging and versatile, keeping users informed and entertained. They serve various needs, from professional tasks to immersive gaming, attracting a wide audience

ART & DESIGN

As a graphic design studio, we incorporate all the latest tools and platforms for creating unparalleled art and designs. The majority of our art designs reflect innovative concepts blended with realistic impressions. We with our dedicated resources help you realize your imagination into reality rephrase.

2D GAME ART

From concept to design, we oversee all stages of your 2D design projects. Our team envisions clients' unique needs, crafting vibrant gaming backgrounds and characters in 2D format. Utilizing cutting-edge tools, we deliver exceptional 2D character design solutions.
